

On letterhead of Lents Neighborhood Association

Date

Cortney Hartman, Board Treasurer
Working Class Acupuncture
3526 NE 57th Ave.
Portland OR 97213

Dear Ms. Hartman,

I write on behalf of Lents Neighborhood Association in support of the Working Class Acupuncture proposal to the the Collins Foundation for a grant to fund re-opening an affordable community acupuncture clinic in the Lents Town Center and provide low cost treatment to 1500 people in need. We strongly support this grant application.

As an organization which represents and advocates for the Lents Neighborhood, since 2012 we have encouraged WCA's efforts to establish a resource for health and community building in the Lents Town Center. The establishment of WCA Lents supported our collective efforts to re-invigorate the Lents Town Center and promote a positive, family-friendly image of our community. [any other details about Lents Neighborhood Association's work?].

Through this letter, we acknowledge that Lents Neighborhood Association will continue to work with WCA to increase equity and provide this invaluable service to members of our community who need resources for pain management and stress reduction. In the event this proposal is funded, we would expect our role in WCA's project to include:

thoughts here?

We look forward to working with you in eliminating health disparities in our community and achieving health equity.

Sincerely,

[Name of responsible person in Lents Neighborhood Association]

[Title of responsible person in partnering organization LNA]

[Address of LNA if not in letterhead]
